

Rainbow Nursery School

“Adding Color to Young Lives.”

Parents of Preschool Children:

It has been proven that children exposed to the joy of learning at an early age, have a tremendous advantage in their later endeavors. The learning process begins from the moment a child is born. The home environment plays a large role in the learning process. However, outside stimulation and socialization is beneficial as well. Rainbow Nursery School can be an important extension of your child’s education.

Rainbow Nursery School offers numerous and varied experiences for children including the use of hands-on learning opportunities through play, as well as the development of motor skill thorough pencil and paper activities. Our curriculum includes music, creative movement, math, science, and literature. Community resources are also used to teach the children about health and safety.

Behind our entire curriculum is an emphasis on Biblical teaching. We believe it is important to incorporate scripture in every area of a child’s life. Their education should be no exception. As a result, Rainbow Nursery School is dedicated to the Lord and to teaching His truths to your children.

Rainbow Nursery School recognizes each child as an individual. Through the love of our teachers and Director, the children are nurtured in their cognitive, emotional, social, and spiritual growth: thus enhancing the happiness and well- being of each child.

Our organized car-pool procedure offers the maximum safety and security for your child and is helpful to families with little ones during unpleasant weather.
